How's Your Gallbladder?

Answer the following questions with a 1-mild, 2-moderate, 3-severe for each symptom. Total them up at the end. A total of 30 points or more could indicate a weakness in your gallbladder function.

___ Do you have abdominal pain on the right side just below the rib cage?

___ Do you have pain between the shoulder blades or beneath the right shoulder blade?

___ Do you have bouts of nausea and vomiting?

___ Do fatty or greasy foods upset you?

___ Do you experience gas and bloating frequently?

___ Do you burp or belch frequently?

___ Do you experience chronic constipation?

___ Do you have a history of gallstones or gallbladder removal in your family?

___ Have you gained weight since the onset of your digestive symptoms?

___ Do you have chronic indigestion or frequently use antacids?

___ Do you have pain midcenter above the stomach?

___ Do you have symptoms of hypothyroid or low thyroid function?

___ Do you sometimes have "foggy brain"?
